Ripley & Co.
Stevedoring & Handling Pvt. Ltd.

RIDING ON EXCELLENCE

Take reliability, integrity, and transparency. Now mix them with an undying commitment and indomitable passion to offer seamless services – you get Ripley Group of Companies for you.

Ripley Group with presence over diversified areas of business has succeeded to become one of the leading business conglomerates. A 3500 employee strong company the Group has grown commendably over the last 30 years and become a name synonymous with trust. With offices in Kolkata, Haldia, Paradip and Visakhapatnam, most advanced fleets and vessels and an unmatched experience, the Group ensures highest level of shipping and logistics services, thus positioning itself as a niche player with distinct identity.

RIDING ON GROWTH

- To grow as one of the leading logistics organizations in India by offering quality and innovative logistics solutions to customers through world-class fleets and excellence in operations.
- To build, develop and harness positive relationships with customers and colleagues and increase value for all stakeholders.

RIDING ON UTILITY

Floating crane/barge supporting inland water transport

The shipping ministry and port authority are encouraging the lighterage mode of operation to increase inland water transportation. Keeping this in mind, we ventured into the lighterage operation with our own floating cranes and fleet of barges.

Import & Export of various minerals

The Group trades into minerals like coal, iron ore, iron ore pellets, limestone for various steel & power industry.

Dry fly ash

The Group has good number of pneumatic bulkers to carry dry fly ash from different power generating stations to various cement plants across country.

Export of dry fly ash

The Group exports dry fly ash from a number of power generating stations to cement manufacturing plants in Bangladesh through Indo-Bangladesh protocol in eco friendly manner.

RIDING ON THE BEST

Highest level of efficiency in design, capacity and superior performance – these are the very things that define Ripley's range of fleets well. It boasts of more than 500 heavy mobile equipments that include mobile harbour cranes, dumpers, trailers, loaders, dozers, excavators, cranes, forklifts and surface miner. Also, it has its own fleet of barges for river transportation of cargo for inbound and outbound logistics. All its fleets are maintained and supported by a team of highly skilled and experienced professionals. That, in turn, ensures safety and reliability.

RIDING ON TECHNOLOGY

The Group is connected to the local and remote networks through an **ERP Software** that enables to track the system on **REAL TIME** basis. Also, to keep a close track of the operation it uses **GPS System** and **Information system** - a planning & acting tool.

RIDING ON ACHIEVEMENTS

- Handling & transportation of around 20 million tons of various commodities (steel, iron-ore, coal, coke, limestone, fertilizer, etc) per annum at Kolkata, Haldia, Paradip and Vizag ports.
- Excavation & transportation of 1 million tons of bulk cargo per annum.
- Barge operation: Around 1.0 million tons per annum (approx).

The group is proud of its association with 2 BOT terminals in eastern part of the country. While in Visakhapatnam, it has been a successful stint with Vizag Seaport Pvt. Ltd. (VSPL) which handles 8 million tonnes of cargo p.a. In Haldia, the alliance has been with International Seaports (Haldia) Pvt. Ltd which discharges 3.5 million tonnes cargo p.a. and it is also the first BOT Terminal in eastern India.

RIDING ON TRUST
